January 14, 2022

Dear Parents/Guardians,

Thank you all for your continued support and understanding of these trying times. Please know that we are following the CDC Guidelines at the following link:

https://www.cdc.gov/coronavirus/2019-ncov/your-health/quarantine-isolation.html

Most importantly to note is that if you or your child are fully vaccinated there is no reason to isolate or quarantine if you or your child are exposed but do not show any symptoms. Also, whether you are vaccinated or not and have had covid within 90 days you are not required to quarantine or isolate due to exposure. All staff are expected to return by Tuesday, January 18, 2022. Staff that need to test to be at work will continue to do so. A notice regarding the bus will go out as soon as possible.

We continue to support parent's choice on whether or not to get their child vaccinated, but they must also be at school, regardless of vaccination choices. If they are vaccinated they need to be at school and, per the guidelines, do not quarantine or isolate due to exposure only.

Please read the link above to get better acquainted with the recommendations we are following. If you have any questions please feel free to call the school and ask to speak with Mrs. Kahl.

Have a great weekend. We will all come out of this stronger as a community. Also, I have to say that Snelling Students are the best students ever! They have been such a huge help around here this week!!

Thank you,

Mrs. Kahl
